

**BURKHARDT  
+  
WEBER**

**BRAND YOUR WORKPIECES  
WITH A BW-LABEL.**

**COMPONENT MANUFACTURING.**

# **YOU KNOW BW AS A MACHINE TOOL MANUFACTURER FOR HIGH-PRECISION MACHINING CENTRES? BW can do much more...**

**We are your reliable supplier in the component manufacturing sector.**

Ranging from prototype to pre-series and serial production – benefit from the diversity of machining competence and our high-quality machinery with 4- and 5-axis machining centres for your work pieces.

## **What is your added value?**

More flexibility. We expand your capacity and assist in achieving fast and accurate operating. Without additional investment required and with precisely calculated costs.

## **Do you need proof of the top quality of your products?**

We measure your parts up to a component size of 3.0 x 2.0 x 1.6 m and max. 8,000 kg.

**Optimize your supply chain and reduce your logistics workload**

– as we can deliver the machined parts directly to your end customers.

## **Milling-Turning-Grinding The full machining competence**

- + Milling of large parts up to 20 tons
- + Carousel turning up to 1.200 mm diameter
- + Multitasking machining, turning, milling, surface grinding
- + Plane grinding
- + Steel, cast-iron, titanium and stainless-steel machining

Contact us for your individual offer. BW is more than steel and iron – we are your holistic partner for component manufacturing.

Benefit from our brand claim:  
strong. precise. customized. digital.
